

Somaditya Bindhani

Full Stack Developer

I am a skilled full stack developer with a love for back-end work. I am an expert in server-side programming, data modelling, and software design with more than two years of experience. Throughout my career, I have worked on a range of projects, from simple web applications to complex enterprise-level systems.

WORK EXPERIENCE

Junior Backend Developer

Magic Media

05/2022 - Present

Dublin, Ireland

Achievements/Tasks

- Designed and developed the game server to handle scalable APIs using **NodeJS, Azure, and AWS in the Serverless Stack** and worked with many databases such as **MongoDB, MySQL, and Postgres**.
- Worked with several clients all throughout the world, including **Bluzelle, Zoolana, and Binamon**.
- My daily tasks include overseeing the data and backend of the game. I handled the **blockchain** interface for the game because the majority of games are **NFT**-based.

Full Stack Developer Intern

Daffodil Health

12/2021 - 03/2022

Bangalore, India

Achievements/Tasks

- Configured and deployed various proactive solutions in the backend, including **pagination, index-based searching, data flow minimization, and API management**.
- Facilitated customization of the system by developing **role-level infrastructure** for the website.
- Contributed to the full software lifecycle of both **backend and frontend** development, from requirements to successful deployment.

Game Developer Intern

Madiee Games

09/2021 - 12/2021

Chennai, India

Achievements/Tasks

- Got a hands-on experience with **HTML Canvas, Game-based scoring patterns, timer, and delaying management**.
- I was engaged in the project as a **Full-stack developer**. 40% of my task was related to the backend, 40% to the frontend, and the rest **DevOps**-related tasks.

EDUCATION

B.Tech in Computer Science and Engineering

Odisha University of Technology and Research (OUTR), Bhubaneswar

07/2019 - Present

9.62/10

12th Grade

Buxi Jagabandhu English Medium School, Bhubaneswar

04/2017 - 04/2019

94.2%

SKILLS

MongoDB

DynamoDB

AWS Gamelift

CI/CD

Serverless

CircleCI

Javascript

HTML

C++

CSS

NodeJs

KonvaJs

ReactJs

AWS

Data Structure and Algorithm

Git & GitHub

Azure

PostgreSQL

MySQL

PERSONAL PROJECTS

Classroom (07/2021 - 08/2021)

- Developed an end-to-end app providing real-time delivery tracking, management, and analytics of student records.
- Polished my backend skills related to **ExpressJS, MongoDB, and general backend architecture**.
- Worked closely with the designs to construct the front end and improve usability.

Book Share (09/2021 - 11/2021)

- The project focused on lending and borrowing books with internet as a medium.
- Engaged mostly in the integration of **frontend and backend, database handling, firebase authentication, and deployment**.
- I managed a team of four regarding task distribution, continuous integration, and delivery.

Cyber Bank (06/2021 - 07/2021)

- In my first Project learned the basics of **HTML, CSS, and JS and got hands-on experience**.
- Got a brief introduction to how version control systems such as **Git and GitHub** function.
- I gained a lot of knowledge about the basics of web development.
